

Dear Pupils, Parents, Families and Friends of Tiverton,

We hope you are all safe and well at home.

It's a really hard time and our thoughts go out to people who have family members that are sick or sadly passed.

We are hoping that with public support to "Stay Home and Save Lives" this pandemic will soon be over and we can try and resume a little normality back to our lives.

I am personally very proud of the dedication and commitment of the staff of Tiverton School, who have been working in school with the pupils of key workers and families in crisis. I would like to thank everyone who has put themselves in this position of risk, in order to keep pupils safe from harm and to ensure parents who need to can work on the frontline as critical workers.

Unfortunately, we are unable to open school over the Easter holiday break. Those of you who have social care input will need to contact your social worker, should you need extra support.

We are hoping that school will be open for pupils on 27th April, however we will be adhering to Government guidelines at that time, depending upon whether the country is still in lockdown, and if it safe to do so.

Over the Easter period I will be in contact with the Local Authority. When we get any more up to date information about school and families, we will post it on our website and Facebook. So please check nearer to that date.

You can also contact our admin by email, if necessary.
Please keep safe and enjoy the company of loved ones

Kindest regards

Alison Neale
